

## **Message from the Principal's desk.**

**“The function of leadership is to produce more leaders, not mere followers.”**

**RALF NADER**

Dear students, schooling is our first contact with the world, a period of joy, healthy competition, adjustment, sharing and love. It is in the heart of students and staff that the true institution exists. Learning is not a process limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process.

Education is a shared commitment between educated teachers, motivated students and enthusiastic parents.

My vision and hope is that St. Agnes' Convent School will withstand the future challenges and continue to play as a new portal of knowledge, creating new opportunities to the learners. Because with the advent of Technology the access to learning informally has enlarged and the learners reach several corridors of knowledge on their own aptitudes and help in fulfillment of their dreams, further emergence of new portals of knowledge have provided opportunities to the learners.

To commemorate the academic excellence, the school has organised various activities over the academic year 2020-2021. Activities engaging from academic, cultural and sports and games were conducted. The flying colours of the Agnes' were seen in their spectacular show casing of their talents on annual Celebration and Academic Award Ceremony which was held on 25 November 2019.

Albert Einstein once said, "It is the supreme art of the teacher to awaken joy in creative expression and knowledge." So the school in its list of programme has undertaken teachers' ongoing training programme, to enhance the language proficiency and to refresh the teaching methodology for all teachers. Selected teachers were sent for various capacity building programme conducted by CBSE.

We live today in a world that is so very different from the one. We grew up in the one we were educated in. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of education.

Aristotle once said that, "Educating the mind without educating the heart is no education at all." This school is oriented to the total formation of a child and adaptations of various methods suiting the dynamics of changing world in order to achieve common goals and objectives. It is further characterized by shared vision responsibility and above all, love and faith in God in order to achieve these goals.

Character creates self respect, which in turn leads to high self esteem. Always remember to uphold the dignity of people. Have something to live for and bring out the best in you.

With lots of love, warm wishes and God's blessings.

**Sr. Glory FSLG**  
**Principal**
